

Colorbond Gate Kit

With the right tools and know-how, a Colorbond gate kit is easy to install. And backed by the expertise of Mackson, you can't go wrong.

Inclusions:

- Colorbond Gate
- Metal 50x50mm Posts
- Black Plastic Flat Caps
- Galvanised Butt Hinges
- Galvanised D-Latch

QTY:

- x1
- x2
- x2
- x2
- x1

Step One:

Select Your Colour

Step Two:

Gate Direction

Choose your preferred direction:

Inward Opening (away from street)

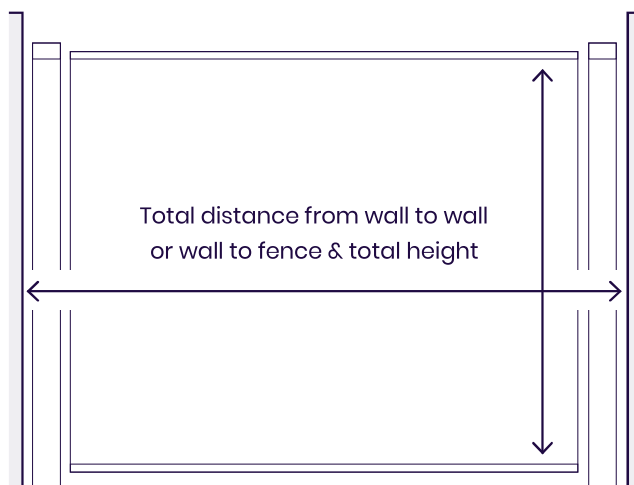

Outward Opening (toward street)

Note. Safety gates should always open away from potential hazards. This causes the operator to have to step backwards first to open the gate, rather than just walking straight through the gate and into the path of a potential hazard. Pool gates need to swing away from the pool area, be equipped with self-closing hinges and a MagnaLatch.

Step Three:

Measurements

Note. Standard 50mm ground clearance

Step Four:

Upgrades & Addons

Enhanced Security

D&D Lokklatch Deluxe Double-sided Keylock

Pool Safety

D&D MagnaLatch Side Pull Lockable Pool Gate Latch
